## PCW\_09\_29 SOLUTION: Graph Parent Translations (version 1)

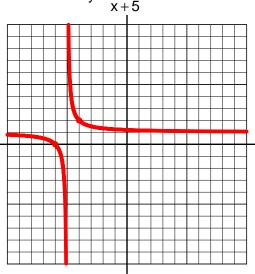

Graph each equation. Let the y axis be vertical and the x axis be horizontal. Also, let both axes be at unit scale, so each goes from -10 to 10.

Clearly mark every solution where x and y are both integers with a small dot along the curve.

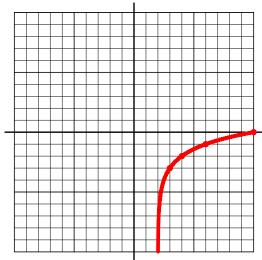

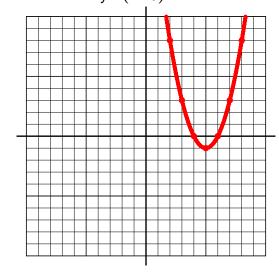

$$y = \frac{1}{x+5} + 1$$

$$y = \log_2(x-2) - 3$$

$$y = (x-5)^2 - 1$$
